

EDITORIAL COMMENT.

There is quite a difference when the Russians have a supply of ammunition.

Flag Day was observed by the Elks at Virginia Park last evening with a most interesting program.

The Hopkinsville ball team has had quite a lot of new blood injected into it and there are hopes that it may do better. It plays Madisonville today on home grounds.

Reports that German-Americans were behind him with some secret organization has brought from Judge Hughes the following statement: "I stated my position very clearly in my telegram to the convention. My position is one of undiluted Americanism and anybody that supports me is supporting an out and out American and an out and out American policy, absolutely nothing else."

6 ROADS SURVEYED

And Almost Ready For Contracts For Improving.

BUTTERMILK ROAD NEXT Hitch In The Route To Muhlenberg County Line.

At its regular meeting Monday the Christian County Road Commission ordered the improvement of the Buttermilk road and its extensions from here to the country line this side of Dawson. The work was really ordered done several days ago but had been delayed but the surveyor selected for it stated that he would start on the job this week. The entire distance from Hopkinsville to the Hopkins county line is to be built, except possibly some stretches of the present pike which are in good shape.

The Dawson Springs people have already agreed that they would build a correspondingly good road from their place out to the county line to join the Christian county pike, making a continuous and high class pike from Hopkinsville to Dawson.

The commission has not taken action as to the Greenville road, the last of the inter-county seat roads not yet surveyed. The delay is due to the fact that there are two branches of this road and before the work can be undertaken an agreement must be made with the Muhlenberg county officials as to which branch shall be designated as the official route so that when the improvement is made in Muhlenberg county it will be on the same road and will connect with the road built in this county.

Plans and specifications for six roads were finally approved by the commission and United States Engineer Whittaker at the meeting and were forwarded to the good roads department at Frankfort for approval. This is the last step and as soon as this approval by the state good roads department is given to the plans and they are returned here, the commission will at once advertise for bids for the actual construction. These roads are—the Madisonville, Fairview, Nashville, Dover or Lafayette, Clarksville and Princeton.

The money on the \$400,000 issue of bonds has been actually paid over by the purchasers and there is no trouble in this respect in letting contracts. The money is to be divided among the various banks of the county according to the original proposition of pro-rating the deposits according to the capital stock and surplus of the various institutions.

Clarksville's Big Class.

The graduating class of Clarksville High School numbered 72; 52 girls and 20 boys.

CHAFIN CASE IN PROGRESS

One of the Defendants in the Renshaw Murder Case.

EVIDENCE ABOUT SAME

Partial List of Indictments Turned in Last Monday.

The time of Circuit Court is still taken up with the trial of Bubber Chafin, one of the negroes twice tried for the murder of Jno. M. Renshaw. This time the cases of Chafin and Ernest Wilson are to be tried separately, Wilson's being set for next Monday. The evidence in the case is not materially different from that heard in previous cases jointly. It is mostly circumstantial, but resulted in a conviction last year and a new trial was granted on appeal.

The case will reach the argument stage by to-day.

INDICTMENTS.

The following indictments returned Monday by the grand jury have been released for publication:

W. E. Penn, suffering gaming on his premises.

Dave Cole, housebreaking.

Will Bailey, carrying a concealed deadly weapon.

Sam Skinner, malicious cutting.

Elder Waters, forgery.

Major Bronaugh, petit larceny.

Robert Waller, colored, chicken stealing.

Jim Duiguid, colored, grand larceny.

Will Moody, carrying a concealed deadly weapon.

James Fruit, same.

Grant Polk, suffering gaming on premises.

James Fruit, shooting at without wounding.

Joe Marquess and M. D. Grubbs, arson.

J. H. Harrell, shooting at without wounding.

Harry Clark, shooting at without wounding.

Two charges were dismissed, these being a charge of shooting with intent to kill against Reuben Wright and a charge of attempt to rape against Luther Warfield.

Henderson Cayce, indicted for carrying a concealed deadly weapon and for petit larceny, was given a fine of \$50 and ten days in jail on the first count and thirty days in jail on the second.

SEASON TO CLOSE TUESDAY

Tobacco Board Agrees To Stop Loose Floor Sales.

It has been decided by the tobacco men to discontinue loose floor sales on and after next Tuesday June 20. Sales will continue daily this week and until next Tuesday, when the last auction sale will be held. The total is far in excess of the sales last year, which gradually ceased without a formal closing of the season.

A CORRECTION.

In the ad of Mack Baber in the Kentuckian's "Page of Presidents" it read Mack Baber Laundry and Tailoring Co., when it should have been Mack Baber Tailoring and Laundry Co.

The Stork.

A fine 10½ lb. boy arrived at the home of Mr. and Mrs. Geo. H. Major, Tuesday night.

Mr. and Mrs. Will H. Forbes are the proud parents of a fine son, born Tuesday night, M. C. Forbes, Jr.

SAME OLD PAIR OF WINNERS WILL BE NAMED AT ST. LOUIS

All Is Harmony And Good Cheer In The Democratic Convention, Which Began Yesterday And Is Going Through on a Greased Schedule—Secretary Baker Arrives, Bearing News of President's Desire For Vice-President Marshall.

St. Louis, June 14.—Arrival here of Secretary of War Newton D. Baker, President Wilson's personal representative, bearing the "president's own" draft of the platform and news that he desired the renomination of Vice-President Marshall; firmly established the harmony program for the democratic national convention which opens today when Chairman William F. McCombs, of the democratic national committee lets his gavel sound at noon, leaders expected all pre-convention discord to be blended into one harmonious note. A program upon both the presidential and vice-presidential nominations and the platform as well has apparently been agreed upon by the leaders.

Vice-presidential booms around which most of the pre-convention fights have centered wilted away under the influence of the personal message from the white house that the president desired Mr. Marshall again as his running mate.

DISPOSES OF OWN BOOM.

Secretary Baker also effectually disposed of the vice-presidential boom in his own behalf which had attained prominence in the behalf in some quarters that Mr. Marshall lacked genuine administration support.

"The president is for the renomination of Vice-President Marshall," was the emphatic statement of Secretary Baker.

Although Mr. Baker declined to disclose the president's platform it will dwell principally "on peace, preparedness for peace and prosperity."

WILL NOT CRITICISE G. O. P. ACTION.

Despite agitation by some democratic leaders President Wilson, it is said, disapproved insertion of a plank criticising the nomination of a supreme court justice for president, or favoring a constitutional amendment prohibiting justices from seeking other public federal offices.

The president desire adoption of a platform so progressive that it will appeal to and attract members of the progressive party but without an open, direct invitation to the progressives to swing their strength to the democratic ticket, it was learned.

As to woman suffrage, it was understood the platform will probably suggest that the women continue their efforts for the ballot in the respective states, the primary authority for political qualifications.

The principal planks, it was authoritatively stated, will deal with the administration's trials and achievements in handling international and Mexican affairs, its rapid and deliberate steps toward "preparedness for peace" and

the record of economic and industrial legislation contributing to general prosperity.

CAMPAIGN TO BE AGGRESSIVE.

Secretary Baker also brought information regarding the aggressive campaign planned in behalf of Mr. Wilson. The country to be covered by leading democratic orators, Vice-President Marshall, Secretary Baker, Secretary Lane, Senator James, Representative Kitchen, of North Carolina; Senators Lewis, Hollis, Reed and Owen and others from both the senate and house will be among the speakers.

BRYAN IS LOYAL.

St. Louis, Mo., June 14.—On the morning of the first session of the Democratic National Convention, two matters of unusual importance in their bearing on the campaign as well as the course of the Democratic Convention are revealed. They were:

First—Formal announcement by William Jennings Bryan that he will make no attempt to throw a monkey wrench into the convention machinery that he will not even appear before the Resolutions Committee in advocacy of his pacifist ideas; that he is earnestly for re-election of President Wilson and will take the stump for the Democratic ticket as early as the latter part of August, if it is the desire of the Wilson Campaign Committee.

TARIFF PLANK READY.

Second—Completion and indorsement by the leaders of the tariff plank in the platform, the matter of greatest interest to the business interests of the country in connection with the convention. The party will indorse the present tariff law and reaffirm its belief in a tariff for revenue only, but will declare both for a tariff commission and the enactment by the present Congress of anti-dumping legislation.

SUFFRAGE DISCUSSED.

Secretary Baker created some talk by declaring in favor of women's suffrage. This led party leaders to believe that perhaps the "President's suggestions" included a suffrage plank, but Mr. Baker declared specifically that he is speaking for himself alone.

The militant attitude of Democrats gathered here increased with the coming of the secretary. This is not going to be so much a convention as a campaign opening. The speeches will be campaign speeches. In contrast with the attitude of the Republicans at Chicago in their negotiations with Roosevelt, the Democrats here seem to fear no one, Bryan least of all.

The convention will be a rally from

start to finish, full of enthusiasm and unity. While it will probably not develop much of "news" except for some startling platform coups, which are suspected, it will show an undivided party front against the Republicans and real enthusiasm for the candidates.

Senator James, permanent chairman of the convention, in a conference tonight urged that the convention be concluded in three days at the most, and not stretched to four. He said there was no necessity for holding the delegates any longer.

VERNON RICHARDSON TO BE CONVENTION SECRETARY.

Washington, June 14.—W. Vernon Richardson, of Danville, secretary for Senator James, left Washington for the St. Louis convention, where he will serve as one of the assistant secretaries. Mr. Richardson was notified of his appointment by J. Bruce Kremer, acting secretary of the National Committee. Senator James' Secretary served in a similar capacity at the Democratic convention at Baltimore and Denver.

TIRED OF CARNIVALS

Cheap Shows That Have to Be Censored Are Tabooed.

Disgusted with the class of shows and the really indecent character of some of them which have been here in the past with carnival companies, the city commissioners Tuesday formally passed a resolution declaring that in future no more carnivals would be permitted in Hopkinsville. There has been a growing sentiment against carnivals here for some time and the action of the commissioners meets with general satisfaction.

BANDITS ROUTED.

In another scrap with Mexican bandits Tuesday, the Thirteenth cavalry routed 25, killing 3 and wounding several. The others escaped into the brush on foot, leaving their horses and supplies.

Hanly Crawfishes.

Frank Hanly, Progressive nominee for Governor in Indiana, declines to run because, he states, the Progressive national convention refused to adopt a prohibition plank in the platform at Chicago.

RUSSIANS CROSS DNIESTER RIVER

More Austrian Positions Fall—Canadian Troops Take German Trenches.

ITALIANS DOING BETTER

Verdun Situation Has Undergone No Material Change.

London, June 14.—In Volhynia and Galicia, the Russians are continuing their strong offensive against the Austro-Hungarians and Germans, and on various sectors in both regions they have made fresh advances and captured additional prisoners and war stores.

In Galicia the drive of the Russians has brought them across the Dniester river, where they have captured the towns of Zaleszyky and Hrodenska, whence they are pressing forward toward the Pruth river and the Bukovina frontier with Czernowitz their objective. Numerous Austrian fortified positions in this region have fallen into the hands of the Russians.

Farther north violent fighting is taking place around Tarnopol where the Austro-Hungarians, reinforced by Germans are holding back the attempts of the Russians to advance in the direction of Lemberg, capital of Galicia. Northeast of Tarnopol, near Vorobievka, positions have changed hands repeatedly in the heavy fighting while east of Kozlov, which lies southwest of Tarnopol, the capture of a Russian advanced post is a reported by Vienna.

CANADIAN TROOPS GAIN.

The Canadian troops in the region of Ypres have made a notable gain over the Germans, retaking from the southeast of Zillebeke in a "gallant and successful assault" more than 1,500 yards of former British positions which the Germans captured recently. The regained ground was held despite a vigorous shelling by the Germans. The Germans suffered heavy casualties in the fighting.

After driving their wedge farther into the French line northeast of Verdun Monday, the Germans on Tuesday did not follow up their advantage with infantry attacks. Only intermittent bombardments are taking place around Verdun.

ITALIANS WIN SUCCESS.

In the Lagarina valley of the Austro-Italian theater the Italians have taken by assault strong Austrian positions and repulsed heavy counterattacks launched by the Austrians. On the Posina-Astico front the Austrians, penetrated Molisani but were later driven out, and in the Sugana valley they met with repulse with considerable losses, in attempt to advance east of the Maso torrent.

Slight successes for their respective sides in Asia Minor are reported by the Russians and Turkish war offices. No important changes in the situation in this region have occurred, however.

The Russian "Come Back."

The bewildering total of 114,000 Austrian prisoners (nearly four army corps) taken by the Russians in seven days' open fighting in the Volhynian and Galician fronts officially is reported from Petrograd. This is the largest capture of prisoners in the field of battle to be reported since the war began. The closest approach to it was Von Hindenburg's crush of the Russians in the Mazurian lakes fighting in February, 1915, when he made 100,000 captives.

In addition to the prisoners an enormous amount of supplies has been captured.

Intervention Near at Hand.

Alarmed over increasing anti-American sentiment in Northern Mexico the United States Government has ordered 1,500 more troops to strengthen the border.

THURSDAY, JUNE 15

Champ Clark says it will be a horse race. Yes, a sort of Charley-horse race.

The town of Washington, Ind., has just been declared wet, after a dry period, by the narrow margin of two votes.

The Russians, French and Italians are fighting with telling results, but the British have not yet started the long-promised offensive movement.

The woman suffragists have moved on St. Louis in strong force, trying to get a favorable plank into the Democratic platform.

One of several bandits killed by the pursuers of the Laredo raiders, wore a Carranza uniform and shoulder-straps and was identified as Lieut.-Col. Villareal.

Governor Stanley was among the first citizens to respond to his own good roads day proclamation. He reported on the Louisville pike Monday morning and went to work with the shovel.

The renomination of Congressman R. Y. Thomas for a fifth term is assured in the Third District. In fact Barkley, Kincheloe and Thomas, the three Western members, are all unopposed.

The farmers who made the excursion to Pendleton county last week came back complaining that the politicians captured their excursion and talked it to death with long-winded speeches in which they were not interested. There was no opportunity given for an exchange of ideas between farmers.

A Washington dispatch says: "Senator J. C. W. Beckham will be unable to attend the National Democratic Convention at St. Louis because of a pressure of business that has accumulated before several of the Senate committees of which Beckham is a member. As there is to be no contest of any kind in St. Louis, Mr. Beckham decided that it was best for him to remain at Washington and push the work in which he is engaged."

We may as well face the issue boldly. The coming contest will be a clean-cut party fight with the best men forward in both parties and practically no issues dividing, since the Republicans have endorsed most of the policies of President Wilson. The only criticism is on his Mexican policy. At this time the entire army is in Mexico and on the border to keep the peace and will remain until it can be determined whether or not intervention is necessary. We are at peace with the rest of the world on an honorable basis. The independent voters will decide the contest and there is every reason why they should vote for Wilson's re-election.

Tea and Coffee Stains.

Old tea and coffee stains are sometimes extremely obstinate and require great pains to remove. Wet the stains in cold water, then soak them in pure glycerin, wash out in lukewarm water and iron on the wrong side until dry. Or mix one tablespoonful of salt with a cupful of soft soap, rub on the spots and lay articles on the grass or in the sun to bleach. Wet the spots occasionally. The natural bleaching power of the sun will often fade out coffee or tea spots if subjected to it for a considerable length of time.

The Cheerful Giver.

"He who gives quickly gives twice." "Yes, mainly because he's always called upon to give again later."—Judge.

LIVE STOCK

RIGHT MANAGEMENT OF BOAR

Animal Should Not Be Allowed to Run With Sows—Sure Way of Reducing Number in Litter.

(By H. M. COTTELL.)

The boar should serve a sow but once, and two sows a day should be the limit for a mature boar, and then he should have a day's rest after every second or third day. He should be used before being fed. Handled in this way, a mature boar is sufficient for 50 sows. Overservice results in pigs that are dead, weak or puny at birth. Probably the greatest cause of pigs born dead or born so weak that they soon die, is allowing the boar to run with the sows. It is a sure way of reducing the number raised in a litter and of reducing the profits.

A boar should not be used for much service until he is at least twelve

Champion Boar.

months old. A fully matured boar produces the most vigorous pigs, other things being equal, and if properly fed and handled, may be profitably kept for several years. His tusks should be cut or knocked off as often as they show considerable size.

Mark the sow when bred and record the date so that she can be separated from the other sows and become accustomed to her farrowing quarters two weeks before the pigs are due.

WINTER SHELTER FOR SHEEP

Comfortable Shed Facing South Affords Ample Protection for Animals During Winter Season.

A roomy shed facing the south, with a hard, dry earth floor, makes the best shelter for sheep. Feed in racks and troughs; what straw is not eaten should be used for bedding. The manure should not accumulate as it will produce footrot and other ailments. A small quantity of flaxseed meal may be added to the grain ration. Second-crop clover, bright corn fodder, wheat and oat straw may be fed to advantage.

Ensilage is growing in favor as a sheep food. The Wool Markets and Sheep Reporter says: "As sheep become extremely fond of ensilage, it is necessary to feed small quantities of it at the start, that they do not overeat. Within a few weeks, however, they may safely be given all they will eat at each meal. Ensilage is found to successfully take the place of roots, though care should be taken that it is properly prepared. It is even better in winter time than green corn is in summer, because the animals will eat stalks and leaves up clean, and the customary waste in stalks is saved."

A practical sheep farmer says: "Sour ensilage made from immature corn is not a safe food, as it is liable to cause indigestion and stomach troubles. Sweet ensilage, fed in small quantities, in connection with oat and wheat straw, and mixed hay, makes an excellent feed. The flock master must use judgment in feeding his flocks."

EFFECTIVE FENCE FOR HOGS

Solid Corner Secured by Filling in Around Post With Concrete—Animals Cannot Get Out.

(By ROY M. PRICE.)

To build a good hog fence first get a solid corner. I dig holes for the corner posts three and a half feet deep and eighteen inches across. I fill up around the post with concrete, five parts sand to one part cement, to three inches above ground so that water will drain off. A good height for the fence is the 30-inch with mesh at the bottom that makes them pig-tight. If a pig is kept in while he is growing he will not give any trouble when grown, provided there is enough to eat.

Boiled Potatoes for Pigs.

If potatoes are not worth more than thirty-five cents a bushel in your part of the country, boil them and feed them to the pigs. Every bushel is worth at least that price for the porkers.

Best Profits in Pigs.

Early pigs make the best profits, but don't overlook the cold spring winds when figuring out your bank balance for next fall. Keep track of the sows so you will be able to care for the little pigs at the right time.

Not a Day in Bed.

Gramling, S. C.—In a letter from Gramling, Mrs. Lula Walden says: "I was so weak before I began taking Cardui, that it tired me to walk just a little. Since taking it, I do all the housework for my family of nine, and have not been in bed a day. Cardui is the greatest remedy for women, on earth." Weak women need Cardui. It is the ideal women's tonic, because it is especially adapted for women's needs. It relieves backache, headache, dragging feelings, and other female misery. Try Cardui. A few doses will show you what it can do for you. It may be just what you want.—Advertisement.

THE POLITICIAN

"The business of a politician is—
"Is what?"
"It is made up of workin' hard to get de public to notice him an' den tryin' to git back under cover."

Should Sloan's Liniment Go Along.

Of course it should! For after a strenuous day when your muscles have been exercised to the limit an application of Sloan's Liniment will take the soreness and stiffness away and get you in fine shape for the morrow. You should also use it for a sudden attack of toothache, stiff neck, backache, stings, bites and the many accidents that are incidental to a vacation. "We would as soon leave our baggage as go on a vacation or camp out without Sloan's Liniment." Writes one vacationist: "We use it for everything from cramps to toothache." Put a bottle in your bag, be prepared and have no regrets.—Advertisement.

Not by a Long Way.

"De man dat goes lookin' for trouble," said Uncle Eben, "doesn't most always git de easy kind he had made up his mind to."

FARM ANIMALS

PRODUCTION OF BEEF CATTLE

On Account of Great Possibilities for Profit Industry Is Receiving Attention in East.

From the descriptive pamphlet issued by an Angus breeder in New York state, we clip the following: "Beef production on eastern farms has not until recently received the attention that on account of its great possibilities for profit it deserves. A new and widespread interest is now being given to the subject and the tremendous opportunities it presents are being made clear.

"At the present level of prices for beef, the returns to the producer show a good margin of profit, and the best authorities are of the opinion that prices will be maintained and increased.

"Thousands of acres of eastern lands within easy reach of our largest cities and the world's best markets, now producing no satisfac-

Polled Angus Steer.

tory return, can profitably be devoted to the raising of beef cattle.

"Beef making offers a welcome substitute to many dairy farmers who, because of unfavorable conditions, have been unable to make the milk check equal the expenses.

"Less outlay is required for barn room, equipment and maintenance. Labor costs are few and this difficult problem is simplified.

"The raising of beef cattle appeals particularly to the farm owner who because of other interests is unable to give it his personal daily and constant attention and the 'farm manager' question is, therefore, more easily solved.

"Beef raising increases soil fertility."

PROPER SHELTER FOR SHEEP

Wool Does Not Afford All Protection Necessary During Winter as Generally Believed.

It was formerly quite generally thought that the sheep's wool afforded it all the protection necessary during the winter. If the fleece could be kept dry it probably would retain enough body heat to keep the sheep warm, but this is impossible without shelter. When a fleece once becomes wet it takes a long time for it to dry out, especially if the weather is cold.

Much energy that would otherwise be used for growth or fattening must be used for evaporating this water. The wet fleece also gives rise to unhealthy conditions.

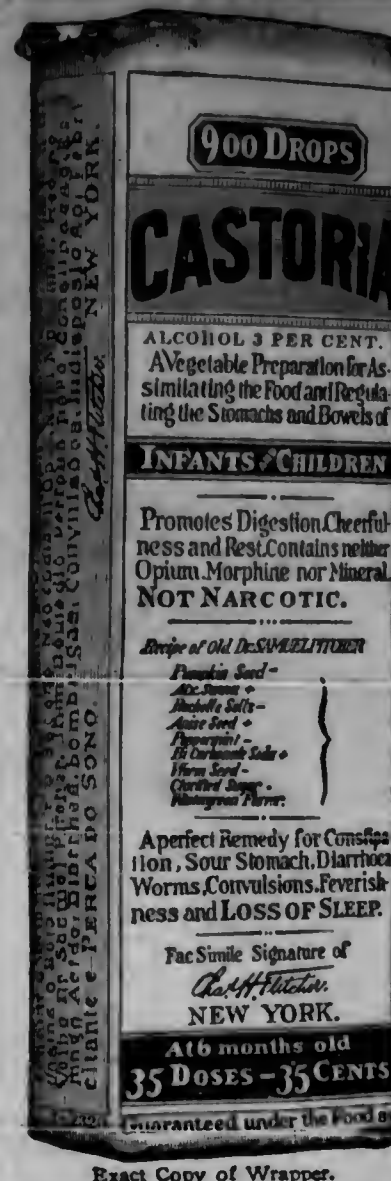

In Great Britain little housing is necessary, but in most places in America this would result in severe losses.

WOULDN'T STAND FOR TEETH

Irate Husband Objected Stronously to His Wife Securing a New Set of Molars.

To advertise his business a dentist recently offered to fit with false teeth the twelve aged women in poor circumstances who were the first to apply to him.

The earliest applicant on the appointed day was an old lady in a faded bonnet, who was politely shown into the consulting room. Scarcely had she seated herself, however, than a red-faced old man presented himself at the door and gruffly announced that he'd "come about them teeth."

"You're making a mistake," the dentist told him. "I only agreed to fit twelve ladies with teeth. There's an old woman inside waiting treatment now."

"Aye, an' it's her I'm after," the old man grimly replied. "Tell her that her husband's waitin' for her, and that she's to come back home at once, or there'll be a rumpus. She's got an appetite like a horse as it is, and if ye fits her up with a strong set o' grinders she'll eat both herself and me into the workus in a fortnit! Send her out this instant, I tells yer!"

And out the crestfallen old lady, still toothless, had to come.

BEETS STUFFED WITH SLAW

It Can Be Served Hot or Cold, as May Be Desired—How to Make the Dressing.

Something out of the ordinary for a luncheon or supper dish is boiled beets with a large part of their center removed and the cavity filled with hot slaw. This makes a hearty dish for a family who are not large meat eaters.

As soon as the beets are thoroughly boiled remove the skin and make four incisions at the top of the beets, indicating the size of the opening. What is removed should be carefully served for salad or used in the making of a savory relish in connection with chopped celery, onion and red cabbage. Have a dressing made by cooking in a saucepan over hot water two beaten egg yolks, a teaspoonful of butter, a half cupful of equal parts of water and mild vinegar and the usual seasoning of salt, pepper and paprika.

When slightly thick pour the dressing over finely cut, crisp cabbage, cut as for cold slaw. Stuff this mixture into the beet shells and if not sufficiently hot place them in the oven for two or three minutes prior to serving. For an economical salad follow the same process, but allow the beets to become thoroughly chilled and fill them with celery mayonnaise or cold slaw, as preferred. No lettuce is needed.

Look Good—Feel Good

No one can either feel good nor look good while suffering from constipation. Get rid of that tired, draggy, lifeless feeling by a treatment of Dr. King's New Life pills. Buy a box today, take one or two pills tonight. In the morning that stuffed, dull feeling is gone and you feel better at once. 25c. at your druggist.—Advertisement.

Why Fish Are Near-Sighted.

As a result of a number of experimental studies, scientists have found that the eyes of fish are relatively large in comparison with human eyes; a fish's eye is ordinary about one-twentieth of the length of its body, while that of a man is from one-sixtieth to one-seventieth of the height. It is believed that this is one reason for their near-sightedness.

CLEANSING HANDS TO TIME

Old-Time Sand Glass Made Use Of by German Surgeons in Washing Hands—Four Processes.

It is reported that a German surgeon in one of the Berlin hospitals has found a new use for the old-time sand-glass. It was discovered that some of the younger surgeons were rather easy going in the matter of cleansing their hands before operations. The regulations prescribe four processes of five minutes each, but rarely were the times kept with any approach to accuracy.

The excuse was that it was difficult to estimate the time without a clock. Others pleaded the difficulty of keeping count of when they began and then reckoning, minute by minute, with only a small watch to go by. The sand glasses, however, put an end to this. Each washstand basin in that hospital has its sand-glass.

For five minutes the surgeon washes his hands with soap and water, and then cleans his finger nails. Another turn of the sand-glass and five minutes more of hand washing with soap and warm water follows. The third turn keeps time for a third wash, this time in alcohol, and the fourth is for the process of sterilization with a wash of corrosive sublimate. Over all these operations the sand-glass stands as arbiter to decide when each has been thoroughly carried out.

PENALIZED FOR BEING POOR

Unfortunate of World Have Still More Misfortunes Thrust Upon Them at Every Turn.

The poor are penalized for being poor. It costs them something to occupy that undesirable position in life. They actually have to pay because they have no money. There does not seem to be any remedy for it, but it is a fact that the unfortunate of the world have still more misfortunes thrust upon them.

The fellow who is able to lay in a year's supply of fuel gets it at a certain price. The fellow who can buy only a small amount at the time pays a great deal more than his fortunate neighbor. The man who could afford to pay almost any price for his food secures it in quantities at low rate; the man who lives from hand to mouth pays double for the same grade of foodstuffs. And so it goes—the poor paying the penalty of being poor.

We do not propose to state the remedy for this condition of affairs, for the simple reason we do not know the remedy. We are stating only facts. But they are such facts as ought to cause everyone to think; they are such facts as ought to cause the strong among us to determine to find a remedy—such facts as ought to be kept before the people until someone among us is developed wise enough and good enough to solve this awful problem which is brought home to millions every hour of the day.—Dayton News.

'T WAS EVER THUS.

"Mrs. Youngwed says she is economically independent now."

"How is that?"

"She sells Mr. Youngwed kisses for 25 cents each. She made over \$20 last week and says it was ridiculously easy."

"It will seem more like work later on."

THE REAL THING.

TILLAGE IN PEACH ORCHARDS

Do Not Resort to Commercial Fertilizers Until All Other Resources Have Been Exhausted.

The peach appears to be the most susceptible of all fruit trees to the influence of commercial fertilizers, says a writer in Practical Farmer. While results obtained by the various experiment stations on the use of commercial fertilizers on apples are contradictory, there appears to be a remarkable unanimity of results as far as the peach is concerned. Incidentally, many of the old theories regarding the proper feeding of peach trees have been overthrown.

Before entering into any discussion of fertilizer for peaches it might be well to digress for a few moments upon the subject of cultivation of the peach. From my personal observations I am fully convinced that not one man in ten who grows peaches realizes the importance of thorough tillage in the peach orchard. In many cases where commercial fertilizers have been employed with good results, the same results might have been obtained, and far more cheaply, if better methods of tillage had been practiced.

Elberta Peach Trees.

The peach grower should not resort to commercial fertilizers until he has exhausted the resources of tillage and cover crops. I have in mind a large orchard in central Delaware where the tillage had been of the best, and the care of the orchard above reproach, yet the trees began to decline in fruit production. A single test during the past season has shown that this particular orchard needs nitrogen and that a small application of nitrate of soda will mean the rejuvenation of the orchard.

The peach grower should not resort to commercial fertilizers until he has exhausted the resources of tillage and cover crops. I have in mind a large orchard in central Delaware where the tillage had been of the best, and the care of the orchard above reproach, yet the trees began to decline in fruit production. A single test during the past season has shown that this particular orchard needs nitrogen and that a small application of nitrate of soda will mean the rejuvenation of the orchard.

NOTICE TO BERRY SHIPPERS

Law Requires That Crates Shall Be Marked With Statement of Quantity of the Contents.

A recent service and regulatory announcement of the United States bureau of chemistry contains the following, which should be of interest to shippers of berries, peaches and tomatoes when ordering their crates for the coming season's shipments: "The department is of the opinion that berries, peaches, or tomatoes in small open containers which are packed in crates and arranged within the crates in layers or tiers, constitute food in package form within the meaning of the net-weight amendment, and that consequently the law requires that the crates shall be marked with a statement of the quantity of the contents. Each such statement should include the number of small containers and the quantity of the contents of each."

THINNING AIDS FRUIT TREES

Overproduction of Seeds Exhausts Vitality—Orchardist Should Aim to Improve Quality.

Thinning makes trees live longer and produce more fruit in the course of time. The overproduction of seed exhausts the vitality of a tree, and is the chief cause of short-lived trees. Thin fruit hard and keep the trees alive and productive.

Thinning increases the fruit grower's profits by increasing both the quality and the quantity of fruit produced within a space of a few years, because he will have practically as much fruit to sell, of large size and better quality, and hence at better price, from trees that bear more nearly annually.

Handle Apples Carefully. The growers who produce the finest and highest priced apples instruct their pickers to handle the apples just as if they were eggs.

Top-Grafting Favored. In unproductive orchards of but a single variety, top-grafting part of the trees with other varieties is recommended.

INDIANA MOOSE AGAINST HUGHES

Going To Wilson and Marshall if T. R. Doesn't Run--Can not Stand For Old Guard.

Indianapolis, Ind., June 12.—Hughes and Fairbanks will not receive the support of the Progressives of Indiana under any consideration and in case the Progressives do not have a national ticket in the field a concentrated effort will be made in this State to throw all the support possible to Wilson and Marshall. Regardless of whether the Progressives keep a national entry in the fall political derby, Indiana will run a full political derby, Indiana will run a full State Progressive ticket. Thus in a nutshell did Progressive State Chairman Edwin M. Lee announce for the first time this afternoon the position to be taken by the central organization since the Chicago nominations.

TO INSIST THAT T. R. RUN.

In addition to this attitude Mr. Lee stated that a strong effort would be made to have Roosevelt reconsider and head the national ticket. He said that it was a fight to the finish in this State and that it would be impossible for the Progressives of Indiana to gulp down the Fairbanks crowd. He also deplored the German-American influence which he charged brought about the nomination of Hughes and Fairbanks.

In part Mr. Lee said: "For an absolute certainty the Indiana Progressives, at least 100,000 strong, will insist that Theodore Roosevelt make the campaign for the presidency. In the case that he does not make the race they will urge another be named in his stead. Under no consideration will they support Hughes and Fairbanks, or the State ticket which is in the field in Indiana."

AGAINST "OLD GUARD."

"Charles W. Fairbanks is especially distasteful to Indiana Progressives since all his alliance has been with the old 'standpat' crowds; Hughes is held with distrust owing to his prolonged silence and the strong German-American influence which brought about his nomination and on the State ticket we find James P. Goodrich as the Republican for Governor. Goodrich is among the Fairbanks crowd as is James Hemenway on the National Committee. We cannot tolerate this 'Old Guard.' Furthermore, regardless of a national ticket, we will have a full State ticket in the field next fall, and most of our number will support Wilson and Marshall rather than Hughes and Fairbanks if the Progressives do not have a national ticket."

Origin of Languages.

Languages grow just like trees, and their diversity is owing to the differing local causes. One of the best short treatises on languages is the chapter on that subject in Tylor's "Anthropology." The story in Genesis about the Tower of Babel is not nowadays accepted by scholars as being of very much historical value.

OUR ADVERTISING COLUMNS

are read by the people because it gives them news of absorbing interest. TIRED OF LIFE SHOOTS HIMSELF

Dr. S. P. Quisenberry, a Cerulean Dentist, Commits Suicide.

Dr. Sterling P. Quisenberry, a dentist of Cerulean Springs, committed suicide Tuesday afternoon at 4 o'clock, leaving no explanation for the deed. He went into the stable loft of Dr. White and shot himself with a pistol. When found he was dead.

Dr. Quisenberry came from Winchester, Ky., and his brother from that place was enroute yesterday for Cerulean to take the body to that city for interment.

An inquest was held yesterday and a verdict of suicide was returned.

Dr. Quisenberry lived here for two years, practicing dentistry. Last year he moved to Cerulean and opened an office dividing his time between this city and Cerulean but lately closed his office here. When here he was a member of the Young Men's Class at the First Baptist church Sunday school. He leaves a wife and two small children, a boy and a girl. He was 32 years old.

CALLED TO REST

Author of "Daddy Long Legs" --Jean Webster Dies Following Birth of Child.

New York, June 14.—Jean Webster, wife of Glenn Ford McKinney, a New York lawyer, died at her home here. A daughter was born to Mrs. McKinney yesterday.

Jean Webster probably was the best known as the author of "Daddy Long Legs." She was born in Fredonia, N. Y., June 24, 1876. She was graduated from Vassar in 1901, after which she lived for some years in Italy.

CORNER STONE LAYING.

The Trustees of the Hopkinsville Colored Schools take much pleasure in saying to the citizens of Hopkinsville and Christian county that we are going to have a corner stone laying of the Attucks High School Building at 3 o'clock, Sunday, June 18, 1916. We invite and urgently request everybody to be present and assist a worthy cause both by their presence and with their money. We also invite all churches and lodges to turn out in a body. The following program will be rendered:

Song—Union Choir.
Prayer—Rev. T. H. Copeland.
Address—E. W. Glass—Church of the Good Shepherd.
Address—Rev. G. W. Spearman, Lane Tabernacle.
Address—Prof. W. C. Davis, Gainesville.
Song—Union Choir.
Address—Rev. E. Williams, Va. Street Church.
Address—Mr. W. A. Long, chairman White Board of Education.
Address—Ex-Councilman H. S. Smith.
Address—Supt. J. W. Marion.
Address—Mr. Peter Boyd, representing the U. B. F.
Song.
Corner Stone Laying—By K. of P. Collection.
Mr. Ned Turner—Master of Ceremonies.

Some Onion.

Mr. D. B. Sigler, our fellow townsman, brought to this office Wednesday morning a mammoth onion in the point of height. The onion measures four feet and two inches in height and contains two large pods of seed at the top of stems or blades. Mr. Sigler is an experienced gardener and champion tomato grower.—Princeton Leader.

Worth-While Quotation.

"The measure of capacity is the measure of sphere to either man or woman."—Elizabeth Oaks Smith.

Seay-Carter.

Roy Seay, of Clarksville, and Miss Ermine Carter, of Lafayette, were married at the home of the bride's sister, Mrs. T. M. Clardy, at Lafayette, last Saturday afternoon. Rev. H. J. Hickerson performed the ceremony. The bride is a daughter of Mr. and Mrs. John Carter. Mr. Seay is an employee of the Clarksville National Bank.

JAPANESE IN RAID

Captured Cowboys Declare Japs Wanted to Hang Them.

Laredo, Tex., June 14.—George Conover, an American cowboy, who, with Arthur Meyers, was captured by the Mexican bandits that raided the T. A. Coleman ranch at San Samuel, last Sunday, arrived in Laredo Monday after a thirty-mile trip on foot.

Conover said the band which sought to drive eighty head of horses across the border was composed of five Mexicans and two Japanese. The Japanese he said, were later captured by de facto government troops. Conover said he was treated well by the Mexicans but the two Japanese wanted to hang him.

The bandits left Conover and Meyers at a secluded place and told the Americans to await their return. The Americans fled, hiding in the brush when the Mexicans came back to look for them.

A number of armed citizens and state rangers were dispatched to Webb, Tex., north of here, when it was reported that railroad bridges were being burned. This report was found groundless, but the rangers took in custody two Mexicans supposed to have been connected with the band participating in the Coleman ranch raid.

McCracken Gardeners.

Checks totaling \$5,150 were distributed to members of the McCracken Growers' Association yesterday by Sales Agent E. S. Barger, covering this week's shipment of strawberries. A final report on the full receipts from strawberries will be made next week.

The next vegetables to go north will be beans, both green and wax, and potatoes. If possible carload lots will be sent out, but the stuff may go in mixed carload lots.—News Democrat.

Snuffbox 600 Years Old.

(Wellsboro, Pa., dispatch to Pittsburgh Post.)

Joseph A. Willard, of Delmar township, has been exhibiting a relic in the shape of a carved ivory snuffbox. On the cover is inscribed "Susanna Willard, 1306." This heirloom is said to have come over in the Mayflower and has been handed down in the Willard family these 600 years.

All She Said.

Man of the House—"Why did you tell my wife what time I came in this morning, after I expressly told you not to?" The Cook—"Sure, Oi didn't tell her. She asked me what time ye got in an' Oi told her Oi was so busy gettin' the breakfast that Oi didn't look at the clock."—Town Topics.

T. S. WOOLSEY, Ticket Agent

Offered J. G. Crabbe.

Richmond, Ky., June 12.—President J. G. Crabbe, of the Eastern Kentucky State Normal, and former State Superintendent of Public Instruction to-day received an offer of the presidency of the State Teachers' College, of Colorado, with a salary of \$6,000 and the use of a handsome home. President Crabbe has telegraphed that he will accept the offer if the Kentucky Board of Regents will release him from his Richmond contract, which does not expire until September, 1919.

Politician Once More.

Charles E. Hughes re-entered politics with abundant zest, opening temporary headquarters in New York and receiving many callers. There was a marked change in bearing, it was stated, his judicial reserve having been discarded and Republicans stated that the campaign virtually had begun.

Get Rid of My Corns With Magic "Gels-It"

Simplest Corn Cure in the World—No Pain, No Fuss. New, Sure Way.

When corns make you almost "die with your boots on," when you've soaked them and picked them and sliced them, when corn-swelling

Why Have Corns At All When "Gels-It" Removes Them the New, Sure Way?

salves, and tapes, and plasters that make corns pop-eyed have only made your corns grow faster. Just hold your heart a moment and assure this: Put two drops of "Gels-It" on the corn. It dries at once. You can put your shoe and stocking on right over it. The corn is doomed. It makes the corn come off clear and clean. It's the new, easy way. Nothing to stick or press on the corn. You can wear smaller shoes. You'll be a joy-walker. No pain, no trouble. Accept no substitutes. "Gels-It" is sold by druggists everywhere, in a bottle, or sent direct by E. Lawrence & Co., Chicago, Ill.

Sold in Hopkinsville and recommended as the world's best corn remedy by L. L. Elgin and J. O. Cook.

Street With State Aid.

It is announced that through State aid Whitesburg will rebuild Main street and construct a splendid model roadway from the town limits to Sandlick creek, which, when completed, will make a continuous fine roadway from Colly to Sandlick, four miles, three miles of the road having just been completed. The town will call an election for voting bonds for its part of the money necessary.

CHAUTAUQUA OPENS TODAY

Entertainment to Continue One Week With Excellent Program Each Day.

Much interest is being manifested in the Alkahest Chautauqua, which will be held here one week, beginning today in a large tent on the lot in the rear of Hotel Latham.

The quality of the program maintains the high standard fixed by the Alkahest company last summer, the talent all being the best to be commanded for the chautauqua and lyceum platform, and its arrangement is such as to afford variety and contrast.

Seats for the entire week are being sold at \$2 and they may be purchased at Anderson & Fowler's, or of the local manager, J. Garland Cooper.

The management will give ten percent of the net proceeds to the churches of the city, as follows:

First Day—Associated Charities.
Second Day—Christian Church.
Third Day—Methodist Church.
Fourth Day—Cumb. Presbyterian.
Fifth Day—Westminster Church.
The sixth day has not been arranged as yet.

The musical feature will include some notable attractions. Beginning the first day with the Lyceum Ladies Orchestra and closing with the Hays-Ricco artists recital, everyday between will find music and musicians who always please the public.

Using Butter.

Butter is the most easily digested of all the animal fats, partly because of the peculiar acids which it contains. In many cases of anemia and nerve-starvation an increased amount of butter in the diet will have very beneficial results, and yet butter is the stumbling block in the way of economy in many households. It is far better to buy less expensive meats than to limit the amount of butter on the children's bread. However, the necessary amount of butter is to be used in cooking is too often overestimated. As a frying medium, it is inadequate, for when subjected to a high temperature it decomposes and imparts a disagreeable flavor. For the same reason it should never be used for oiling tins. Either cooking oil, lard or beef fat should be used instead. Because of its cost, butter has no place in plain cooking. Equally good cake, cookies, and sauces may be made with other cooking fats.

To Restore Colors.

Ammonia will often restore colors that have been faded by acids.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO., Toledo, O. We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by him.

NATIONAL BANK OF COMMERCE, Toledo, O. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75 cents per bottle. Sold by all Druggists. Take Hall's Family Pills for constipation.

SPEARS-WILSON

Young Cadiz Preacher Weds Pretty Hopkinsville Girl.

Rev. D. M. Spears and Miss Lucy Wilson were married yesterday morning at the home of the bride's parents, Mr. and Mrs. Walter A. Wilson, on East 7th street, at 10 o'clock. Rev. Lewis Powell, of the Methodist church, performed the ceremony. Mr. and Mrs. Spears left on the 11:05 train for Cadiz, where they will go to house-keeping.

Mr. Spears is a young Methodist preacher in charge of two churches in Trigg county, this being his first assignment.

His pretty bride is one of Hopkinsville's most lovable girls of the younger set. A part of last year she was assistant secretary of the H. B. M. A. but resigned to go to Cadiz, but returned home after some months there. It was while living in Cadiz that she met the young preacher who has won her heart and hand.

The good wishes of many friends attend the young couple.

PIANO MAN DROWNED.

Mr. John V. Steger, president of the Steger & Sons Piano Company, of Chicago, and of the Smith & Nixon Company, of Louisville, and one of the ablest business men of the entire West, was accidentally drowned at Steger, Ill., Monday. Mr. Steger was a native of Germany, and was slightly over sixty years of age. He had accumulated a large fortune in the piano business by the application of great ability and industry to that business.

Doctors Lose Case.

Murray, Ky., June 14.—Mrs. Perry G. Melon, of Paducah, was awarded a judgment of \$2,000 in the McCracken Circuit Court last week against the former medical firm of Mason, Evans & Cays, of this place. In a former suit Mrs. Melon recovered a judgment for \$3,500, but the case was appealed, reversed and remanded for new hearing. The suit grew out of an operation performed on Mrs. Melon at the Murray Surgical Hospital some two years ago for goiter.

Graduate Killed.

John Marshall Cloyd, about 22 years old, son of Judge J. W. Cloyd, of Campbellsville, while riding a motorcycle, was struck by a Louisville bound passenger train near Lebanon Friday afternoon and so badly injured that he died a few hours later. Cloyd was a member of the class that was graduated from Centre College, Danville, Thursday, and was on his way home when he was killed.

Only Way to Know Dogs.

The only true and thorough way to know the dog is to own one. A common residence under the same roof tree, he it animals or humans, is the sure test of personality. To own the dog is to comprehend him in his faults and virtues to protect his weaknesses, he anxious at his vagrancies, to catch the contagion of his love, and to agonize if it so be that he die.—Our Dumb Animals.

CORPORATION FOR CROFTON

Dixie Motor Company Files Articles With County Clerk.

Articles of incorporation of the Dixie Motor Co., have been filed with the County Clerk. The incorporators are J. W. Brown, Charles A. White and Laura White, all of Crofton, where a general garage business will be conducted. The capital stock is \$1,000, divided into 40 shares of \$25 each. The indebtedness is not to exceed \$400 at any time.

JENKENS-BUTLER MEETING.

The Jenkins-Butler meeting at the First Baptist church continues to draw large crowds, especially at the evening services. Both rooms of the church are filled every night and Dr. M. A. Jenkins is preaching a powerful series of revival discourses. The song services for an hour preceding the sermons are a most enjoyable part of the revival. Services will continue at 10 a. m., and 7:45 p. m., until further notice.

Stockwell-Gray.

Trenton, Ky., June 14.—Eugene C. Stockwell, president of the Trenton business men's association and Mrs. Eva Gray, a popular Trenton matron, were quietly married here Monday night in the presence of a few friends, Rev. J. T. Lewis of the Baptist church officiating.

R. F. D. CARRIER APPOINTED.

Holman S. Brame has been appointed carrier on Rural Route No. 2, out of Herndon, this county.

Gives Palm to Endurance.

A somewhat varied experience of men has led me, the longer I live, to set less value on mere cleverness; to attach more and more importance to industry and physical endurance. Indeed, I am much disposed to think that endurance is the most valuable quality of all; for industry, as the desire to work hard, does not come to much if a feeble frame is unable to respond to the desire.—Thomas Huxley.

Fruit Loaf for Lunch.

Mix together half a pound each of seedless raisins, stoned dates, pitted prunes and figs, a quarter of a pound each of almonds and Brazil nuts, and a pound of pecan meats. Put them through the meat chopper, add the juice of two oranges and knead the mixture well, pack in cans and slice down, using as a sandwich filling or in place of cold meat.—Woman's World.

Spice Cakes.

Two tablespoonfuls beef drippings or chicken fat, one-half cupful sugar, one egg, one cupful sour milk, two tablespoonfuls molasses, one level teaspoonful soda, salt, two cupfuls bread flour, one-half teaspoonful each nutmeg, allspice, cinnamon, clove, one-half cupful raisins, cut in two. Make in a loaf or small cakes. Frost with white frosting.

Small Welsh Rabbits.

Cut small, round pieces of toast about three inches; toast lightly; place one or two rounds of the toast on individual hot plates; pour over the rabbit, dividing its contents, to each piece of toast; serve immediately as first course to a dinner or luncheon as a sort of appetizer.

Butter in the Icebox.

For a small icebox where space is precious, put butter in a small enamelware dish, closely covered. This will be found as impervious to odor as the much heavier traditional butter crock of earthenware, will occupy much less room and cannot be tipped over as easily.

To Open Sardine Can.

Those who have trouble in opening a sardine can will find this is a good way: Start the key as usual, then insert the blade of a can opener in the loop of the key and turn. This acts as a lever, removes all strain and opens the can easily.

Saving Time on Apples.

By pouring boiling water over the cooking apples they are much easier to peel. This will be found a considerable saving of time when there is a morning's cooking to do.

For Tough Meat.

One method of making tough meat more tender is to brush it over with olive oil and let it stand for several hours.

Kincheloe on Davis.

Representative D. H. Kincheloe, of Madisonville, delivered a masterly oration in the House of Representatives upon Jefferson Davis and the Southern Confederacy upon the one hundred and eighth birthday of the immortal President of the Confederacy. Mr. Kincheloe beginning with statistical and historical data warmed up through graduations of eloquence into a fervid and beautiful that brought down the House. His tributes to Lincoln, the President of the United States, and Davis, President of the Confederacy, synchronously, both Kentuckians, were equally effective. The young Kentuckian, resonant of voice, graceful and expressive in gestures, with a sensitive intellectual face not unsuggestive of the old world countenances of Patrick Henry and Henry Clay, showed himself the loyal son of a "Johnny Reb" in his enthusiastic utterances. His address ended with the quoting of the beautiful patriotic inscription upon the Confederate monument at Arlington. Jefferson Davis was born in Mr. Kincheloe's district.

(Washington Correspondent Sunday's Courier-Journal, Sunday, June 11, 1916.)

Bordeaux Mixture.

Dissolve four pounds of blue stone in a small pail of water. After it has dissolved dilute to twenty-five gallons. Slack six pounds of lump lime in a small pail of water, and dilute to twenty-five gallons. Do not pour one solution into the other, but pour the two solutions into a third barrel at the same time, stirring vigorously to insure thorough mixing. It is very essential that the two solutions be mixed this way so as to prevent crystals from forming, and thus reducing the strength of the mixture.

Cocksurenness Blamed.

Gen. Leonard Wood was talking at the Pittsburg camp about the sin of cocksurenness.

"Gen. Sherman," he said, "once got word during a battle that Roscoe, his favorite horse, had been killed by a cannon ball. So he sent for his servant and said:

"Go skin Roscoe."
"Why, general," said the man, is Roscoe dead?"

"The general frowned, martially. "Never you mind whether Roscoe is dead or not," he said. "You go skin him."

"It was evening when the servant returned with Roscoe's skin on a pushcart.

"Does it take you four hours to skin a horse?" asked Gen. Sherman, impatiently.

"No, general; only one hour," said the servant; "but it took three hours to catch him."—Exchange.

The Best Book

Of course the best book is the Bible. The man who said the best book was the pocket book, tried to say something smart and failed.

A bank book is a better book than a pocket book. The thief might steal your pocket book, or you might lose it in many ways. It's gone for good, too. But in case of accident we will gladly supply you with another bank book and your funds will always be secured in our bank. Place your dependence on a bank book in preference to a pocket book every time. We will furnish you a nice one free any time you wish to open an account.

WHOLE SOME FEED FOR SOWS

Special Attention Should Be Given to Animal Expected to Farrow Strong, Healthy Pigs.

The brood sow that is expected to farrow good, strong healthy pigs should receive a little special attention. During the first few weeks of pregnancy there is little extra demand on the mother, but later in the period the fetus is developing rapidly, and the extra care is necessary.

The brood sow must have plenty of clean, wholesome feed. The feed

Extra Fine Specimen.

should not be fattening, but succulent and somewhat laxative. Roots, kale or fine clover hay are good winter green feeds. The hay is not green, but has the same effect on the digestion. Clover or alfalfa hay may be fed in racks where the sow can help herself at will. Do not force her to make her living altogether from this diet, but it supplements the grain very nicely. Don't starve the sow and expect to get a strong litter of pigs.

It is best to have the sows separated from the rest of the hogs, and if the old sows fight the younger ones make a further separation. It doesn't pay to subject the pregnant sow to punishment. Oftentimes they are found in the steer feed lot, where they are bunted around too much. Of course it is best not to shut them up in the farrowing pen until a few weeks before farrowing. They should be in there, however, long enough beforehand to become accustomed to the place. If you wait until the sow has picked her bed or nest, trouble may result. Keep the sow well fed, well exercised, and in clean quarters for best results when it comes to farrowing time.

SHEEP REQUIRE DRY SHELTER

In Ordinary Climate House for Animals May Be Constructed of One Thickness of Boards.

Contrary to general opinion, sheep as well as any other class of farm animals require clean, dry shelter. It is especially important that the feet and fleece be kept dry. If their quarters are dry and clean the sheep will stand very cold weather without discomfort or disease. There must be ample ventilation, for sheep, if closely crowded, sweat badly and quickly use up the oxygen in the air, but there must be no drafts as sheep are easily subject to colds.

In the ordinary climate the sheep barn may be constructed of one thickness of matched boards. It should be large enough to house the entire flock without crowding. Windows enough to permit lots of sunshine to enter and clean, dry bedding under foot are necessities. The lambing pens should be of warmer construction than the general shed.

RIGHT WAY TO CATCH SHEEP

Get Him Either by Hind Leg or Placing Hand Under Jaw—Never Grab Him by the Wool.

It is improper to catch a sheep by its wool. Butchers know what it means to the poor animal, for it leaves a black or blue mark or bruise on the carcass, which interferes with the sale of it.

Catch a sheep either by the hind leg or by placing the hand underneath the jaw or neck. When using a crook, aim to catch a sheep above the gambrel joint, as there is danger of injuring the leg when catching it below this joint.

REMOVE YOUNG PIGS' TUSKS

Youngsters Often Use Teeth in Fighting for Possession of Teat—Not a Difficult Job.

When young pigs are nursing they will often fight one another for the possession of a teat, and at that early age will make use of their tusks. The results are many lacerated mouths. The teats of the sows sometimes become sore from the same cause.

The removal of the tusks is the best way to prevent these troubles. This is done by taking a pig under the left arm, the mouth is then opened and the tusks are removed. James declared them

Speechless For Thanks.

Mrs. Ark.—"I find Cardui to be all you represent," writes Mrs. H. B. York, of this city. "I suffered from womanly ailments, for nearly two years, before I tried Cardui. I have been so relieved since taking it. I cannot say enough in its praise. It has done me a world of good, and I recommend Cardui to all women." Cardui is over 50 years old, and the demand is greater today than ever. Cardui is the standard, tonic medicine, for women of every age. Would you like to be well and strong? Then take Cardui. Its record shows that it will help you. Begin today. Why wait?—Advertisement.

WATER FOR STOCK IN WINTER

As Essential as Food in Wintering Breeding Animals During Cold Weather—Provide for Supply.

Good water is as essential as food in the wintering of breeding animals and ample provision should be made to provide the animals with an abundant supply of good, pure water throughout the winter. Other things can possibly be dispensed with, but pure water is indispensable.

Nor will we wonder when we know that one-half the live weight of all domestic animals is water, and that water is the universal solvent, the medium by which organic and inorganic substances that nourish the system, are made available.

FIELD OF PEAS HOGGED OFF

Average of \$25.53 Per Acre Obtained by Idaho Experimental Station in Feeding Swine.

Valuing pork at \$6 per cwt., a field of peas "hogged off" at the Idaho experimental farm returned \$108.15 worth of pork, an average of \$25.53 per acre or \$2.13 per 100 pounds of the peas.

Results like this indicate that farmers in those sections where peas naturally do well, need not depend upon corn entirely for their swine feeding operations.

REMEDY FOR ACUTE BLOATING

One Quart of a 1 1/2 Per Cent of Formalin Recommended by Kentucky Experiment Station.

Circular No. 5 of the Kentucky experiment station, Lexington, Ky., states: "We strongly recommend, for acute bloating (of cattle), one quart of a 1 1/2 per cent solution of formalin, followed by placing a wooden stick in the animal's mouth and gentle exercise if the animal can be gotten up." This treatment proved successful in treating six cases of acute bloat at the station during the last two years, suffering from the ailment disappearing in twenty to thirty minutes.

A study of the problem of a successful treatment for bloat, other than puncture, was brought about by the usual growth of white clover in Kentucky pastures during the spring of 1913. Trouble with bloating or hoven among cattle on legume pastures is quite common, especially during the period when they are blooming. Chemical study revealed that there is a considerable quantity of sugar in the blossoms of various legumes, the amount varying from less than 1 per cent to 3.6, and that there is a natural fermentation of this sugar to carbon dioxide gas, under the conditions which exist in the digestive tract.

After finding that bloating is caused by fermentation of the sugar, in legumes that are eaten, Doctor Kastle of that station suggested the use of formaldehyde as a means of relieving the ailment. Lad's Oona bloated badly on white clover June 13, 1913. She was drenched with one liter of water containing 40 c. c. of formalin, a block of wood being placed between the jaws afterwards to keep her mouth open. "At the end of 20 minutes," the circular states, "she had entirely recovered. No bad after-effects followed this treatment."

Formalin is a trade name for a 40 per cent solution of formaldehyde gas in water, and it may be purchased at almost any drug store for about 40 cents a pint. One-half an ounce of formalin in one quart of water makes the right solution with which to drench an animal for bloat.

ADVANTAGES OF A FEED BAG

Wide Mouth of Device Permits Horse to Lift His Head Without Spilling Feed on Ground.

It is stated that the wide mouth of this bag permits a horse while feeding to lift his head without spilling

A Handy Feed Bag.

the feed. It is claimed further that the bag may be quickly attached and removed.—Independent Farmer.

SCREENINGS MAKE GOOD FEED

Sheep Gain From Twelve to Fifteen Pounds During First Thirty Days, Says Ontario Station.

The Ontario experiment station has found that screenings are used in large quantities for the winter feeding of sheep, the sheep being taken from the range and fed for about 30 days. At first they are given only hay, then a small quantity (one-half pound a day) of light, chuffy screenings is added. Gradually the quantity of screenings is increased until in about a week or ten days, the sheep have access to the "self feeders" from which they eat all the screenings they care for (about two pounds a day). At the same time the proportion of chaff in the screenings is decreased and the proportion of grain increased. Gradually the screenings are replaced with corn.

On the screenings the sheep usually gain from 12 to 15 pounds during the first 30 days, after that loss rapidly. It is stated that 50,000 sheep will eat about two cars of screenings and a car of corn per day. Seed-house screenings and screenings containing a large proportion of broken flax are avoided. Another use that is made of elevator screenings is in the manufacture of mixed feeds, chiefly molasses feeds.

Four Cardinal Points.

Lambs, wool, mutton and manure are the four cardinal points of sheep raising. Profit is not in the total amount derived but the excess after the cost is deducted.

MEN IN MIND IN HOPKINSVILLE

Prominent Factors in The Busy Life of the Pearl City.

BIOGRAPHICAL SKETCH NO. 88

A "Young Napoleon" of The Hopkinsville Grocery Trade.

WILL S. MITCHELL.

With a few exceptions the real live wires among the business men of Hopkinsville are young men. As a rule they are young fellows who have made modest beginnings and worked their way to the front by dint of hard work and patient application, succeeding where others have failed.

In this class Will L. Mitchell occupies a prominent place. He was born at Whitesville, Daviess county, Ky., Oct. 18, 1879, a preacher's son, and came to Hopkinsville first about 1900 to clerk in a furniture store of Mitchell & Humble, the senior partner being his brother, T. J. Mitchell. He was here only a short while when he returned to Linnland College, in Har-

din county, to complete his education. He graduated in 1901, his teacher being Prof. Barksdale Hamlett, subsequently Superintendent of Public Instruction during the last administration in Kentucky. In 1902 he went to Elkton and embarked in the grocery business, staying there three years and then moving to Trenton where he remained another period of three years. In 1903 he acquired an interest in the American Life & Accident Insurance Co., and moved to Louisville as its State Manager and later as Secretary and Treasurer. While there he made a consolidation with the Kentucky Central Co., disposing of his one-half interest in the old company for \$20,000, and got the position of general manager in the new one on a long contract, with Hopkinsville as his headquarters. This was in 1912, since which time he has been identified with Hopkinsville business interests.

He began by dealing in real estate, showing his faith in the city by investing a good portion of his capital in valuable residence property. In May 1915 he bought out a string of groceries, four or five of them, in different sections of the city, and adopting the cash system began to attract attention by liberal advertising that speedily brought returns. As a result his stores at once leaped into prosperity and the young merchant's business has grown so rapidly that his various enterprises keep his hands full of work and his pockets full of money. Mr. Mitchell is married and is the father of two bright children. He lives in one of his row of nice new cottages on West Thirteenth Street. He is prominent also as a church man and a lodge man. He belongs to the Methodist church, the Elks and the Travelers' Protective Association. He possesses the essential attributes of a first-class citizen, but his dominant characteristics are energy, progressiveness and rare business acumen.

STRAWBERRY GOLD MINE.

Over \$400,000 has been poured into the coffers of Warren County strawberry growers in the past three weeks—a golden stream that will enter into the arteries of trade and rebound greatly to the benefit of every line of business. This has been by far the best strawberry year Bowling Green and Warren county has ever known. Not less than \$60,000—some say \$72,000—was paid to strawberry pickers during the season drawing to a close. Up to Saturday 358 car loads had been shipped and these cars heavily packed equal to at least 400 car loads of the capacity of those of 1915.—Bowling Green News.

375 Cars In Warren.

Bowling Green, Ky., June 12.—Manager Hubert D. Graham shipped for the Warren County Strawberry Growers' Association eight cars of berries Friday, which makes a total of 350 cars. The season will close about Tuesday or Wednesday. Manager Graham expects to ship about twenty-five or thirty more cars before the season closes.

The cars are loaded much heavier this season than last year, with 420 crates to the car, as compared to 350 crates to the car last year.

Lieut. Sausley Buried.

Lieut. Richard Caswell Sausley, States aviator killed in action, was buried here.

For cash with order send only \$1.00 and we will pay shipping charges. The beautiful 3-4 leather outfit costs only a few cents more. For a copy of the business directory, change of address, or send \$1.00 cash in full.

MISS LAWSON WON PRIZE

Of \$15.00 For the Most Correct Answer to Puzzle Page.

HAD ONLY SIX ERRORS

Many Replies Were Received From Four Different States.

Miss Louise Lawson won by a single point over five others who had 7 mistakes each. They were A. M. Henry, Jr., Newstead; Mrs. Malcolm Shipp, Hopkinsville; Anna Agnes Todd, Madisonville, R. 5; Mrs. Fannie M. Owens, Mt. Vernon, Ill.; Violet Lee Owen, Hopkinsville.

Miss Lawson's mistakes were: Washington served two terms, served only 7 years and 10 months. She did not say how many presidents there have been, whether 27 or 28.

In Lebkuecher's ad "wherever" was not the intentionally misspelled word.

In Roby House ad "plaiice" was not a bad word. It means a fish. In Amaza ad "rensing" and not canvassers was the intentionally misspelled word.

The word "hey" counted as an error, because it is a good word in the dictionary. It means an exclamation and is an old form of spelling the word hay.

Mr. Geo. Martin, who put on the feature here, left yesterday for Paducah.

Advertisers generally know in a broad way that their advertising is profitable, but the reader in selecting his purchases does not often feel it necessary to say that he was induced to buy through any particular advertisement.

"The 'Page of Presidents'" that appeared in last Saturday's Kentuckian has convinced the business men participating that the Kentuckian's ads are read.

In some lines this benefit must come

in an indirect way—others the returns are direct—but all, one of the greatest sources of profit in good advertising is its cumulative effect.

The "Page of Presidents" is simply an incident in Kentuckian advertising—a straw to show the effect of the wind—an idea of a furnishing amusement, instruction and profit to the readers and indubitable evidence of the value of advertising to the business men participating.

Letters in answer to the "Page of Presidents" contained not only from Hopkinsville, or towns, villages and rural places but from the States of Tennessee, Indiana and Illinois. The contest editor and his assistants went over each answer carefully, and chided up the mistakes and after a partial conclusion decided that Louise Lawson, 421 W. 7th St., Hopkinsville, Ky., with six mistakes, had the best prepared and nearest correct answer; consequently the Kentuckian's \$15.00 cash prize was awarded to her.

The intentional misspelled words, commencing at Washington down to Taft and back to Jackson were—Re-tale, qualifications, sliceous, shipped, separate, guaranteed prompt, excell, accomodations, extuninate, attending, receave, rensing, bicyele, viset, tryal, strents, absorbtion, hold, shipping, quality, ordurs, rompness, none, patrons, releat, eposets.

A great many historical words, labour, flavour, districte, plaiice, extasy, lge, excited, chase, clew, speciality, fire, and hey for some of the intentionally misspelled words, but they can be found in Webster's Dictionary with a definition. There were several of the inevitable typographical errors, but in each instance where the contestants mentioned them in connection with the misspelled word they were given credit for the same.

There is one thing certain, the readers of the Kentuckian know more about the men who have been president of the United States than they did previous to the appearance of the "Page of Presidents." The Kentuckian is pleased that it put on a feature with a purpose and pleased alike its readers and advertisers.

Children Cry FOR LETCHER'S CASTORIA

An Ideal VACATION Tour
